TFS Application Flows

This presentation documents the current application flows for the Student Application and the Links for Seniors Application. Its purpose is to clarify the application flows to understand potential areas for pruning the architecture slightly to improve maintenance as well as flexibility as our Cohort population increases.
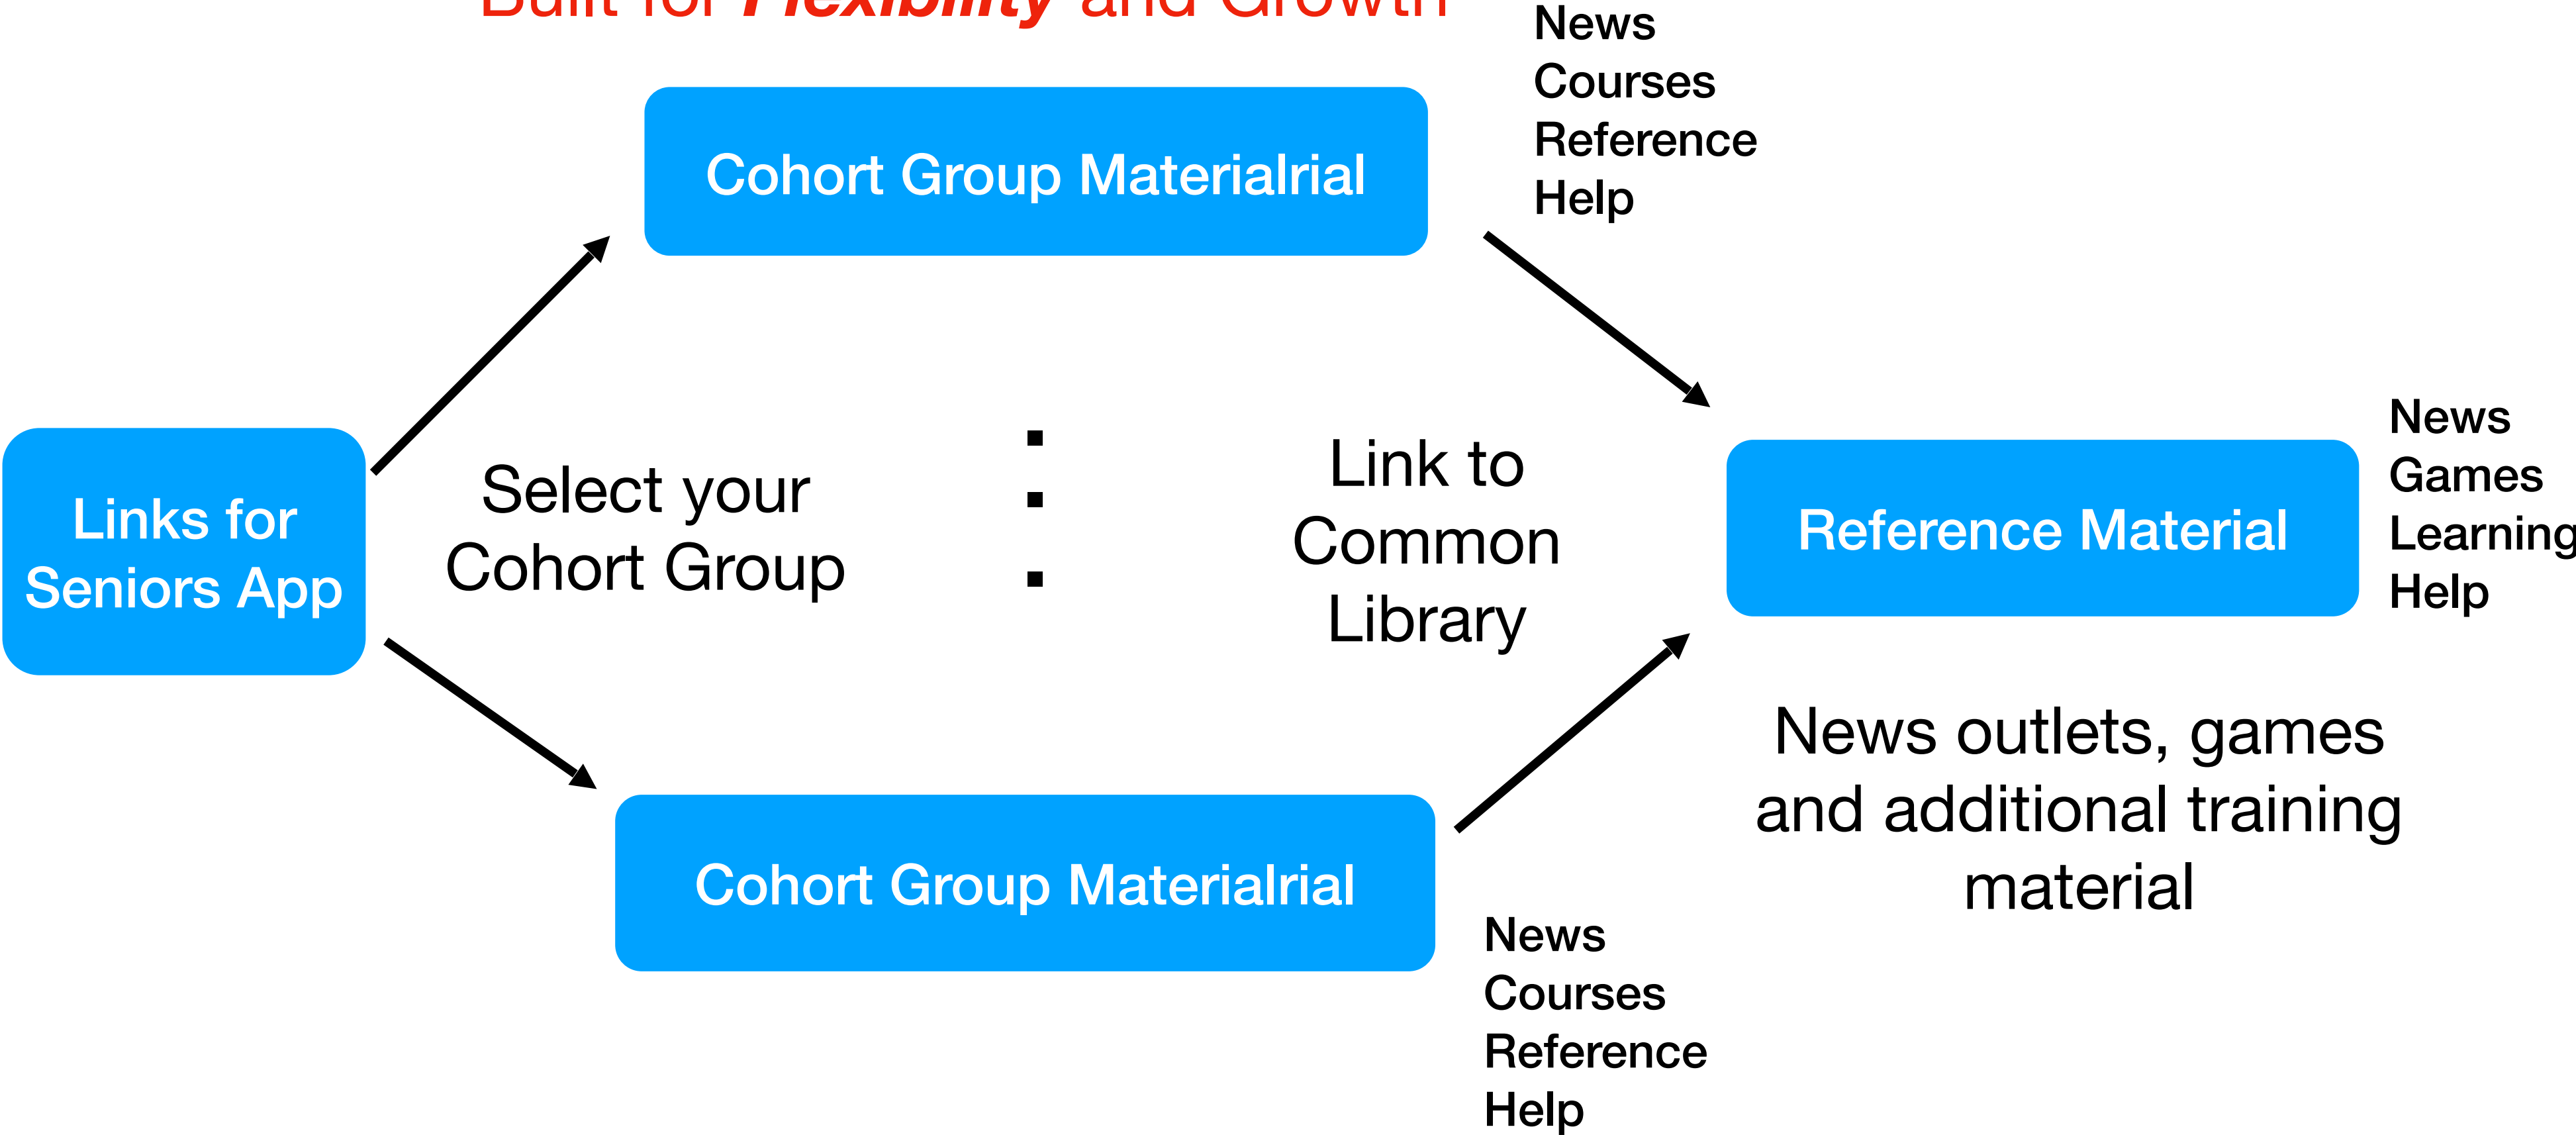

This architecture has been iteratively restructured to improve scalability and flexibility with respect to

- # of cohorts

- Disparities in Cohort participants

- # of news, games and instructional lessons in the library

- Etc

We wanted to provide a custom Cohort specific experience while leveraging a common library of content. We are still adjusting this architecture as our needs change. Ideas are ALWAYS welcome, (sometimes). 😁

An objective might be to evolve this to a single app, instead of the Student App and the Links for Seniors App. The current limiting factor is that MapMySite, which is used for the Learning Center App doesn't currently support Landscape Mode.

Classes are help on consecutive Tuesdays from 2/11/25 through 4/1/25 from 10:30AM to noon.

Class Schedule

- Week 5 - 3/11 @ 10:30AM Review, Games and Mapquest
- Week 6 - 3/18 @ 10:30AM Games & Utilities
- Week 7 - 3/25 @ 10:30AM Introduction to the Internet
- Week 8 - 4/1 @ 10:30AM What's Next/Final Survey/Exploring the World

> **NOTE**: *Please assure that your tablet is charged for class.* A suggestion is to always leave it plugged in. That way it is always available when you want to use it.

NOTE: Week 5 will be a review week. Play games and use MapQuest to explore the world. Additional training material can be found in Exploring the World with MapQuest.
